Saloonkeeper Killed at Bar; Take Partner

(Pictures on back page.) George (Dutch) Dietrich, known the police as a pickpocket and holdu man, was shot and killed last nigh as he was serving drinks across the

bar of a saloon at 1657 West Lake street, of which he was half owner. Strenuous efforts were made to close the usual channels of police informa tion following the killing. The body of the slain man was carried to an automobile by his partner. CHAMBERLAIN, A

It imes the voice of the speaker dropped and he leaned heavily on the table looking as if he were about to collapse. According to Sir Austen, everything was lovely. Locarno was not lost, but the spirit was stronger than ever; in fact, things could not have some better for the peace of Europe. Chamberlain made a bitter attack on the most lamentable failure British diplomacy has had in several years, thing was lovely. Locarno was a fatal blunder in method, but it might have been retrieved. It is might have been retrieved. It is most a consultation for the peace of the responsible for the criticism of Great British in the United States because of his newspaper articles. Then he had a polygined, saying that nothing would interfere with his personal relations with Mr. Lloyd George. He cadmitted he had renewed an old promise to Epiln to support her for a seat in the council, but he denied that he had made any promise to Poland.

FRANCE LETS U.S. DEBT REST UNTIL HOME FIRES BURN

[Chiesgo Tribune Fress Service.]
PARIS, March 23.—A spokesman for the French government today authorized The Tribune to announce that Ambassador Henri Berenger has made no specific offer to increase France's proposals to Secretary of the Treasury Andrew Mellon for funding the war debt. No action will be taken by France until congress has ratified or rejected the Italian accord and the French financial measures for balancing the budget have been passed.

"The ambassador at Washington has been conferring with United State treasury officials regarding the solution of our obligations to America, but nothing concrete has been decided or even offered," said the Quai d'Orsay official, "With the successive changes in the cabinet and finance ministers since Joseph Calilaux's return and

His "personal world. opinion," if it does not commit the British government to a policy, at any rate indicates clearly the trend of thought in the British government. There is no lack of evidence that the same trend is to be found in most of the capitals of Europe as a result of the recent flasco at Geneva.

Brazil adopted a course at Geneva which kept Germany out of the league of nations. Germany's ssion to the league was one of the matters agreed upon at Christmas time at Locarno. > WHAT PROHIBITION DID FOR SOUTH DAKOTA.

Chicago, March 20 .- The following appearing in Tuesday's TRIBUNE from George H. Randall of Rapid City, S. D., the first Democrat elected to a county office in that state, fills me with a bitterness that I feel toward any one who talks against prohibition:

" I know that South Dakota would vote on a clear cut issue," Randall said. "In our town before prohibition we had eleven saloons and one night watchman, Now we have six police in uniform, four plain clothes men, and six deputy sheriffs. In the old days we seldom had more than one or two prisoners in our jail Now it is full."

Mr. Randall fails to state that South Dakota was dry three years before Volstead and by direct vote of the people, and that before woman suffrage. The charity organizations no longer exist in the South Dakota town in which I was born and reared. The main thoroughfares have been paved; splendid illumination has been installed throughout the place, even out to the farms. A hospital and modern high school have been built, as good as the finest in Chicago. A million dollar bridge has been built across the river to replace the old ferry of the saloon days, opening up miles of heretofore isolated farm districts. The farmers' wives no longer wash farmhands' heavy, dirty clothes on a washboard. They have electric washers. They can come into town to church now on Sunday, a privilege they seldom had ten

TAXING THE BOOTLEGGERS.

Chicago, March 16,-I read today that Gen. Andrews is going to tax bootleggers \$6.40 a gallon on liquor they produce. How can a tax on illicit liquor be possible? If a tax is collected does not that put the bootlegger in the same standing as the distilleries that are paying taxes under permit by the federal government? Again, how can the government tax anything that is unlawful? I admit I don't know, I am not a lawyer. I am a sewer digger. The Volstead act makes liquor illegal. The 1926 revenue act reads tax it \$6.40 per gallon. The doings of some of our brilliant men sometimes make funny reading.

A Star Performer

"The Sport of Kings"

You don't often see a comedy so refreshing and amusing as "The Sport of Kings," from the clever pen of Ian Hay Beith. It opened on Sunday at the Playhouse.

A real plot and excellent lines. A splendid cast headed by O. P. Heggie in the most priceless performance of his career. And a sur-prising touch in the use of The Dictaphone.

Shorthand couldn't meet the situations in this modern comedy. That's why the Dictaphone was put in the cast; just as it has been called in to help thousands of modern executives. And it plays its part mighty well.

As you would expect, it helps work out a speedy, smooth-running plot; and in thousands of business offices The Dictaphone has already speeded up action and smoothed out

Typical, also, of The Dictaphone's efficient performance is the way it brings happiness to the heroine. There's many a girl in actual business life who has been helped to better positions by The Dictaphone.

It has released her from the time-wasting, never-racking necessity of writing every-Ming twice-once in shorthand and again on the typewriter. Brought her opportunities for headwork, and cut down the time consumed for handwork.

Speed - efficiency - contentment. That's The Dictaphone story every time.

DANDRUFF?

Do something about it!

DANDRUFF is a danger signal. If you have it you should do something about it.

Perhaps you never knew it before, but dandruff is a germ disease. It spreads by infection from personal contact, as with the common use of combs and brushes. Children, for instance, are never troubled with dandruff until actually infected by some contact.

Dandruff is a disease difficult to cure but easy to check. It has a tendency to reappear, unless properly treated, and often brings with it the possible loss of hair or actual baldness. The ideal treatment to combat dandruff

conditions is the systematic use of Listerine, the safe antiseptic. We have received hundreds of unsolicited letters from Listerine users, who are most enthusiastic in their claims for what Listerine

will do in this way. If you are troubled with dandruff you owe it to yourself to try it. The use of Listerine for dandruff is not complicated. You simply douse it on your scalp; full strength, and massage thoroughly. The effect is antiseptic, cleansing and healing. And you will be amazed to see how this treatment, followed systematically, combats dandruff.

Moreover, Listerine will not discolor the hair nor will it stain fabrics.

Not only men but women have become devoted users of Listerine for this purposewomen, particularly, since bobbed hair has been in vogue and has made them more conscious of dandruff if it happened to be present.

Try Listerine some evening when your scalp feels tired and itchy. Dandruff is probably causing the trouble. Apply it generously and then massage vigorously. You will find it a stimulating tonic for the scalp, and in addition to combating dandruff, you will find that it adds that luster and softness to the hair that is so important a part of being well-groomed. -Lambert Pharmacal Co., St. Louis, U.S.A.

The secret of keeping good looks on your car

MOTORISTS AUTOMOBILE SALES AGENTS and AUTOMOBILE **MANUFACTURERS**

OF INTEREST

Where does age first begin to show

That depends largely on the kind of metal trim and fittings with which the car is equipped.

Bright and shining metal beading, stripping and molding, glittering lamp trim and dash-board equipment, lustre of hub caps all are high-lights that give the look of newness to a car.

But if these parts are made of corrodible metal rust will speedily fade their brightness. And when they become dingy your car begins to look old.

Plating or enamel alone does not long protect brilliance of trim and fittings. The metal underneath must be rustproof or rust will attack it.

That is why trim and fittings should be of Brass or Bronze.

These metals take any desired finish. They hold their finish and keep good looks on your car because they do not rust.

Uses simple home treatment Goes to work next day

While working on the deck of steamer, Lewis H. Niemyer, of Baltimore, Md., tripped and sprained his ankle.

"Twenty minutes later I could hardly walk with a cane," he writes. "I got a bottle of Sloan's Liniment, and to the surprise of all I was at work next morning. It is remarkable—the help that Sloan's gives to a sprain. Just a little of this remarkable liniment patted lightly on, and you begin to feel relief.

Right to the place that hurts it brings the fresh healing blood. The swelling and inflammation go down, the pain stops. Get a bottle today. All druggists—35 cents.

ZELOSKY'S estchester

In the history of the development of Chicago, one singular fact stands out—prosperous communities have always been built up around terminals of the "L." Such was the case in Wilson Ave., Logan Square, Howard Ave., and Ravenswood. History will repeat itself in Zelosky's WESTCHESTER. The terminal station here is practically completed, tracks have been laid and "L" trains will begin running about May 1st.

It is but natural that after more than a Quarter Century of successful development, the William Zelosky Company should sponsor such a project.

Columbia River Highway Old Oregon Trail,

the Ideal Near Portland summer playground of America

OREGON, in the Pacific Northwest, is the greatest summer resort land in America, because of its ideal summer climate, long, sunny days, which are never extremely hot—and cool, invigorating nights.
You may climb its snow-capped mountains, fish its trout-filled lakes
and streams, bathe at its ocean beaches and lake pleasure resorts, and play golf on the most beautiful links in the West-in perfect comfort and enjoyment.

You may come by train, in luxury and comfort, over several scenic routes, or by automobile over the Old Oregon Trail—the highway with a history and the most scenic and best road to the West.

Your vacation may be utilized to thoroughly investigate the wonderful opportunities that await the newcomer to Oregon.

There is no boom in Oregon and we do not want one. We want every one to come to Oregon who can take advantage of the opportunities we have to offer.

A thousand industries are wanted in Oregon. What kind of industries? Just the one that you have been engaged in. We can tell you where your industry is needed, what raw material is available, the labor conditions and market possibilities.

There is an abundance of hydro-electric power. Foreign markets can be reached through the 52 steamship lines that operate between Portland and all the principal ports of the world.

Oregon, the home land: the best place for a one-family farm. Small acreage can be cultivated with the most satisfying results. The equable climate, rich, fertile lands, and easy access to markets, favor the Oregon farmer.

Portland's famous Rose Festival is from June 14th to 19th. Special low summer rates on all railroads.

The chief contributors to the Cub Practice at Northwestern hit column were old reliable Sparky Adams and the flashy Cliff Heathcote. Sparky kept the Frisco fans from be-coming too crude in their remarks by a close second with three hits one of which splashed against the high right field fence for two bases. Freigau and Shannon also assaulted the same

Bass fishermen will find Lake Moses about three and a half miles northeast of Benton. Ill. It's an artificially made lake, covering 300 or 350 acres, and was put on the map in 1917, according to one Benton fishermap. Several car loads of bass were planted in the lake by the state and now they keep the pike and pan fish company or else busy, as the large mouths sure do consume the minows.

The Benton anglers say that two and five pound large mouth bass are not uncommon and that Jimmy Snyder of Chicago took a whopper from the bullrushes of Lake Moses that weighed better than the 1925 prize winner.

Tax Bill Goes to President

Washington, D. C., March 23 .- (P)-

Congressional action was completed to-day on a bill to give states authority under certain conditions to tax the in-comes of national banks. The measure,

already approved by the senate, was passed by the house and now goes to the President. It would amend existing

banking laws to make it possible for

national banking associations and their and their stockholders.

"The bill," the committee report ex-plained, "provided for alternative ex-clusive methods for taxing national

\$20,000,000 Brown Company

First Mortgage 20-Year Sinking Fund 51/2% Gold Bonds Due April 1st, 1946

Price 97 and Interest, Yielding Over 53%

The Company will pay interest without deduction for any normal Federal Income Tax up to 2%.

The following information is taken from official sources:

Brown Company, founded in 1852 and since 1868 continuously controlled and operated by the Brown family, is the largest manufacturer in this country of bleached sulphite pulp and kraft wrapping paper. The Company also manufactures bond papers and allied products, and has developed a special high-grade sulphite pulp now widely used in the manufacture of rayon.

The Company owns properties at Berlin, Gorham and Shelburne, New Hampshire. It owns the entire common stock of Brown Corporation, a Canadian subsidiary. The Company and subsidiary own water power plants with an installed capacity of over 42,000 h. p., a steam plant of 20,000 h. p., and 140,000 h. p. of undeveloped water power. The timber holdings of the Company and subsidiary cover over 5,500 square miles, an area much larger than the State of Connecticut, and are estimated to contain sufficient pulp wood to operate the Company's mills for over 40 years, making no allowance for the benefit of reforestation.

These bonds will be secured, in the opinion of counsel, by a direct first mortgage on the entire property of the Company and further secured by a pledge with the Trustee of the entire \$9,000,000 of common stock of Brown Corporation, and \$550,000 of stocks of other subsidiaries. Upon completion of present financing these bonds will constitute the only funded debt of both the Company and its subsidiaries. The property of the Company and its subsidiaries has been appraised at over \$73,000,000, which, after deduction of Brown Corporation preferred stock is over 3.5 times this issue of \$20,000,000 bonds.

A sinking fund is provided to retire one-half of this issue by maturity.

Total net income, as officially reported, of Brown Company and Brown Corporation before depreciation and depletion, but after Federal Taxes and dividend on Brown Corporation preferred stock, has averaged for the past ten years over \$3,692,000, or over 3.3 times the annual interest of \$1,100,000 on these bonds. For the year ended November 30, 1925, net earnings were \$3,257,000, or more than 2.9 times such charges. Charges for depreciation and depletion have averaged \$1,494,000 per year for the past six years, and for the year ended November 30, 1925, amounted to over \$1,597,000. The property has been adequately maintained and is in excellent operating condition.

> We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

This Chicago Bond House Wants Representatives in Cities and Towns Outside Chicago

It believes that the logical man to sell bonds in any community is a man who lives in that community and has gained the confidence and respect of its citizens. Successful real estate and insurance men and junior officials of banks, who can devote part of their time to bond selling, are regarded as especially well fitted for this work.

The bonds handled by this house are high grade Municipal, Railroad, Public Utility and Industrial issues. To men who can qualify as representatives it has a most attractive proposition to offer. Some of these men will, eventually, become full time representatives of the company with a territory of their own to cover.

To those who seriously consider this proposal the Bond House will furnish facilities for a careful checking up of its standing and record. It will expect to be accorded the same privilege by them. All correspondence will be treated as confidential and references not looked up until permission to do so is given.

Is your bond judgment

as good as your banker's?

A bank president had a great many bonds maturing in the next few years. The advice of the Compton Company was to sell, even at a loss, and reinvest in long term, non-callable municipals at 51/4 to 6 per cent, with an anchor of \$500,000 in Liberty's at an average price of 87.

Despite the temptation to buy good bonds at 7 per cent to 8 per cent yield, the bank followed the Compton plan. That was in 1920. Today the 7 per cent and 8 per cent bonds have all been called. Municipals of the same grade now yield only 4 per cent to 5 per cent. This banker has an extra profit of ten points in his bond account.

The service of William R. Compton Company is for your benefit. This is sound selling policy; for where you profit most, you buy most. A letter or telephone call will put the resources of this national, thirty-nine-year-old investment house

Interest payable March 1 and September 1 without deduction for any Federal Income Tax not in excess of 2%, which the Company or the Trustee may be required or permitted to pay thereon or retain therefrom. The Company agrees to refund to resident holders upon proper application certain state taxes as defined in the Note Agreement. Principal and interest payable at the office of The Guardian Trust Company, Cleveland, Ohio, or at the principal office of Fidelity Trust Company of New York. Redeemable as a whole or in part, for the Sinking Fund, by lot at any time on thirty days' notice at 101½ and accrued interest to and including March 1, 1927; at 101 and accrued interest therefore and prior to maturity. The Guardian Trust Company. after to and including March 1, 1928, and at 100 ½ and accrued interest thereafter and prior to maturity. The Guardian Trust Company, Cleveland, Ohio, Trustee.

Mr. F. A. Seiberling, President of the Company, summarizes the details of this issue as follows.

BUSINESS: The Seiberling Rubber Company was incorporated in Delaware in 1921 and is engaged in the manufacture of automobile tires, tubes and other rubber goods. The Company has built up an enviable reputation in the manufacture of heavy duty pneumatic tires for trucks and buses and is reported to rank among the first six producers in this field. The Company's plants are located at Barberton, Ohio, and New Castle, Pa. Its products are distributed through 16 branches located in the larger cities of the United States to some 4,200 retailers, of whom about 50% are exclusive Seiberling dealers.

PROVISIONS OF NOTE AGREEMENT: These Notes will be the direct obligation of the Company and will a nst tute its only funded debt. The Note Agreement will provide that during the life of this issue the Company wil, not create any mortgage (except that it may acquire additional property subject to purchase money mortgages) or will not create any funded debt or other debt payable more than twelve months from the date thereof (with exception of current indebtedness created in the ordinary course of business and having not more than 12 months to run). These \$1,500,000 Notes are followed by Preferred and Common Stock having a market value at current

quotations in excess of \$5,750,000. ASSETS: The Company's consolidated balance sheet, certified by Messrs. Haskins & Sells, Certified Public Accountants, as of December 31, 1925, after giving effect to this financing, shows net current assets of \$2,964,-454.18, approximately 200% of the amount of this Note issue. Net tangible assets, after depreciation, were \$5,596,730.98, equivalent to \$3,731 for each \$1,000 Note.

SALES AND EARNINGS: The growth of the Company's sales and earnings from the first full calendar year of operation is indicated by the following consolidated income account for the four years ended December 31st, as reported by Messrs. Haskins & Sells:

Net Income (exclusive of profits from sales of crude rubber) available for Interest, Depreciation and Federal Taxes 384,924* 153,074 1,119,777 Maximum Annual Interest Requirements this issue.....

In the years 1924 and 1925 such earnings were equivalent to 13 times and 18 times, respectively, interest requirements on this issue. The four-year average, reflecting in 1922 and 1923 the extraordinary expenditures incidental to the organization and development of the business, showed net sales of \$6,940,140 and net income as above of \$596,763, which is approximately 71/4 times maximum present interest requirements on this issue.

SINKING FUND: The Note Agreement under which these Notes will be issued will provide for a semi-annual Sinking Fund beginning September 1, 1926 sufficient to redeem \$125,000 of the Notes each six months to and

CONVERSION: These Notes will be convertible at the option of the holder at any time on or before ten days prior to maturity or redemption into 8% Preferred Stock and Common Stock of the Company at the rate of 8 shares of Preferred and 7 shares of Common for each \$1,000 principal amount of Notes converted on or before March 1, 1927; at the rate of 8 shares of Preferred and 6 shares of Common for each \$1,000 principal amount of Notes converted after March 1, 1927 and on or before March 1, 1928; and at the rate of 8 shares of Preferred and 5 shares of Common after March 1, 1928.

PURPOSE OF ISSUE: The proceeds from the sale of these Notes will provide additional working capital made necessary by the growth of the Company's business and increased costs of crude rubber and for other corporate

WHAT MAKES H.O. STONE **BONDS SAFE?**

No. 9 of a Series

Ample Income Under All Conditions

T is a rule of this House never to make a bond issue on any building unless its gross rental income is approximately three times the greatest annual interest on the bond issue.

Having such an income when the bond issue is made, it is certain that under any and all renting conditions there will be an ample margin of earnings to assure the safety of the bonds. What types of property meet this requirement?

The Apartment—when well located, properly planned and constructed and carefully managed. It often provides gross earnings of four or more times the interest on a conservative bond issue.

The Hotel-strategically located and well managed.

The Business Block-properly situated and comprising diversified earning units such as stores, banking quarters, offices and apartments.

The Theatre—an essential element of modern life.

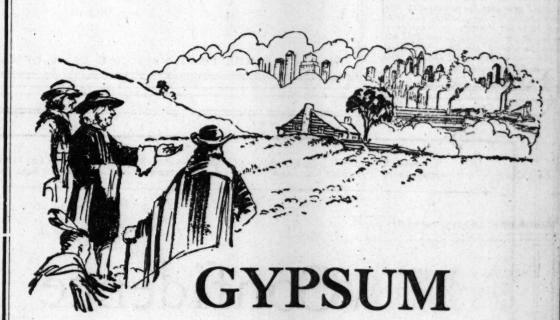

The Office Building-providing what every profession and industry requires: offices in downtown or outlying business sections.

So carefully have the properties been chosen which secure our bonds that they always have produced a flow of earnings ample to pay both the interest and the serial bonds and exceeding the requirements of safety.

In the Hands of the Colonists

It is a pleasant national pastime in America to fasten the credit for those major achievements which have a history reaching back to the colonial times on the shade of Benjamin Franklin.

Three contributions to civilization can hardly be separated from "Poor Richard" and the results of his research—the beginning of electricity, the development of the domestic furnace and the introduction of Gypsum to the colonists. To the colonists Gypsum meant fertilizer. The first need of the country was for food and the ground sprinkled with this "land plaster" yielded better crops.

Franklin, it is said, in order to inspire his neighbors with the value and importance of Gypsum, would prepare a field for sowing by first spelling out in the field with ground Gypsum the words "Land plaster used here." Then he sowed clover. The finer and taller crop which grew on the Gypsumed land was a liberal education to his neighbors, easily readable on the ground throughout the sea-

Gypsum still has commercial value as a fertilizer, but newer and greater uses for the product have come with modern building and construction. American builders have seized

the lines of Benjamin Franklin and, lifting them from the clover-fields of Pennsylvania, have rewritten across the skyline of the nation's building program "Gypsum used here." The story of Gypsum has been written into a book by J. Jay Fuller, which this Company will be glad to present to those

Oil-O-Matic Expands in Austin Buildings

FROM 4 dealers in 1920 to 1600 in 1925 tells the story of Williams Oil-O-Matic—now the largest oil burner manufacturer in the world.

Early in 1925 Austin was called in to design and build the first major plant extension and the basis was laid for economical future expansion along standardized lines. In September Austin built a second large plant unit and today is constructing a large administration building.

Oil-O-Matic's repeat contracts are a striking recognition of Austin's ability to design and construct good buildings in good time at the right costs. This same ability is what you want on your plant project.

BANKERS TRUST COMPANY, NEW YORK, TRUSTEE

The following information has been furnished by Mr. E. F. Albee, President of the Corporation:

Organization: B. F. Keith Corporation has been organized under the laws of the State of New York to acquire the assets and business of The B. F. Keith Theatres Company, of B. F. Keith's New York Theatres Company and of certain of their respective subsidiaries. The properties to be acquired will constitute a large part but not all of the B. F. Keith Circuit of vaudeville and moving picture theatres. It is contemplated that the new Corporation will eventually acquire or control all of the theatres embraced in the B. F. Keith Circuit braced in the B. F. Keith Circuit.

Business and Properties: The B. F. Keith Circuit was started in 1883 with one theatre in Boston, Mass., and since that time has grown until today it extends from the New England States west to Indianapolis, Ind., and south as far as Washington, D. C., and Louisville, Ky. The Corporation will operate or control, directly or through subsidiary or affiliated companies, 34 owned or leased high class vaudeville and moving picture theatres located in New York City, Brooklyn, Syracuse and Rochester, New York; Boston and Lowell, Mass.; Washington, D. C.; Cleveland, Columbus, Akron, and Youngstown, Ohio; Portland, Me.; Philadelphia, Pa.; Detroit, Mich.; Jersey City, N. J.; Indianapolis, Ind.; and Ottawa, Canada. Several of the theatre buildings contain offices and stores which give a steady income from rentals Capitalization: Upon completion of the present financing, the capitalization of B. F. Keith Corporation

*In addition to this offering and to the \$4,845,000 bonds reserved to refund underlying mortgages now outstanding there may be issued against presently owned properties \$1,890,000 additional bonds. Security: The fee properties and improvements and equipment thereon to be directly owned by the Corporation were valued as of December 31, 1925, at \$14,576,983, the leasehold estates and improvements and equipment thereon at \$9,913,343 and certain shares of capital stocks of subsidiary and affiliated companies to be owned at \$4,252,390, based upon an appraisal as of July 1, 1925, made by The American Appraisal Company, with adjustments by them for subsequent depreciations and with respect to physical properties for deductions and additions at cost as reported by Messrs. Ernst & Ernst. The total

funded debt which may be outstanding against the properties and assets so appraised at a total value of \$28,742,716, will be \$12,735,000. The bonds of this issue will be secured, in the opinion of counsel, by a direct first lien on fee properties and leasehold estates with the improvements and equipment thereon, included in the above mentioned appraisal at \$14,711,950, of which the fee properties were valued at \$6,063,450 and the leasehold estates at \$8,648,500, and by a general lien on properties (85% owned in fee) included in the appraisal at \$9,778,376 and now subject to separate mortgages on the several properties aggregating \$4,845,000. Such mortgages may be refunded with bonds of this issue under the terms of the indenture but shall not be extended or renewed. Stocks of subsidiary and affiliated companies, appraised at \$4,252,390 as stated above, will be pledged under the indenture securing this issue as additional security. The Corporation will own stocks of subsidiary and affiliated companies not included in the appraisal but carried on the books as of December 31, 1925, at \$296,126, which will also be pledged to secure this issue.

Additional Bonds to a total of \$6,735,000 may be issued against the presently owned properties, of which \$4,845,000 are specifically reserved to refund the underlying mortgages now outstanding on individual properties. Additional Bonds (up to an aggregate of \$25,000,000 principal amount of all series to be at any time outstanding) may be issued from time to time under provisions of the Indenture to acquire additional properties, for additions, betterments and improvements and for other purposes as provided in the Indenture. Bonds hereafter issued may be issued as Series "A" Bonds or as the entire in accordance with the provisions of the Indenture.

other series in accordance with the provisions of the Indenture. Purpose of Issue: The proceeds from the sale of the Bonds now offered will be used for refunding and expansion and for other purposes

Earnings: The consolidated net earnings of the properties and assets to be acquired by the Corporation available for interest after depreciation based on original costs without giving effect to the appraisal above mentioned but before Federal Taxes, as certified to by Messrs. Ernst & Ernst, have averaged \$1,951,139 annually for the six years ended December 31, 1925, equivalent to 3.21 times the interest charges of \$607,500 on the funded debt of \$10,845,000 to be presently outstanding. For the year ended December 31, 1925, such earnings were equivalent to 3.17 times these interest charges.

RANKERS TRUST COMPANY NEW YORK TRUSTER To be dated: March 1, 1926 BANKERS TRUST COMPANY, NEW YORK, TRUSTEE

The following information has been furnished by Mr. E. F. Albee, President of the Corporation: Organization: B. F. Keith Corporation has been organized under the laws of the State of New York to acquire the assets and business of The B. F. Keith Theatres Company, of B. F. Keith's New York Theatres Company and of certain of their respective subsidiaries. The properties to be acquired will constitute a large part but not all of the B. F. Keith Circuit of vaudeville and moving picture theatres. It is contemplated that the new Corporation will eventually acquire or control all of the theatres embraced in the B. F. Keith Circuit.

Business and Properties: The B. F. Keith Circuit was started in 1883 with one theatre in Boston, Mass., and since that time has grown until today it extends from the New England States west to Indianapolis, Ind., and south as far as Washington, D. C., and Louisville, Ky. The Corporation will operate or control, directly or through subsidiary or affiliated companies, 34 owned or leased high class vaudeville and the companies of th picture theatres located in New York City, Brooklyn, Syracuse and Rochester, New York; Boston and Lowell, Mass.; Washington, D. C.; Cleveland, Columbus, Akron, and Youngstown, Ohio; Portland, Me.; Philadelphia, Pa.; Detroit, Mich.; Jersey City, N. J.; Indianapolis, Ind.; and Ottawa, Canada. Several of the theatre buildings contain offices and stores which give a steady income from rentals. Capitalization: Upon completion of the present financing, the capitalization of B. F. Keith Corporation

*In addition to this offering and to the \$4,845,000 bonds reserved to refund underlying mortgages now outstanding there may be issued against presently owned properties \$1,890,000 additional bonds. Security: The fee properties and improvements and equipment thereon to be directly owned by the Corporation were valued as of December 31, 1925, at \$14,576,983, the leasehold estates and improvements

and equipment thereon at \$9,913,343 and certain shares of capital stocks of subsidiary and affiliated companies to be owned at \$4,252,390, based upon an appraisal as of July 1, 1925, made by The American Appraisal Company, with adjustments by them for subsequent depreciations and with respect to physical properties for deductions and additions at cost as reported by Messrs. Errst & Ernst. The total funded debt which may be outstanding against the properties and assets so appraised at a total value of \$28,742,716, will be \$12,735,000. The bonds of this issue will be secured, in the opinion of counsel, by a direct first lien on fee prop-

erties and leasehold estates with the improvements and equipment thereon, included in the above mentioned appraisal at \$14,711,950, of which the fee properties were valued at \$6,063,450 and the leasehold estates at \$8,648,500, and by a general lien on properties (85% owned in fee) included in the appraisal at \$9,778,376 and now subject to separate mortgages on the several properties aggregating \$4,845,000. Such mortgages may be refunded with bonds of this issue under the terms of the indenture but shall not be extended or renewed. Stocks of subsidiary and affiliated companies, appraised at \$4,252,390 as stated above, will be pledged under the indenture securing this issue as additional security. The Corporation will own stocks of subsidiary and affiliated companies not included in the appraisal but carried on the books as of December 31, 1925, at \$296,126, which will also be pledged to secure this issue.

Additional Bonds to a total of \$6,735,000 may be issued against the presently owned properties, of which \$4,845,000 are specifically reserved to refund the underlying mortgages now outstanding on individual properties. Additional Bonds (up to an aggregate of \$25,000,000 principal amount of all series to be at any time outstanding) may be issued from time to time under provisions of the Indenture to acquire additional properties, for additions, betterments and improvements and for other purposes as provided in the Indenture. Bonds hereafter issued may be issued as Series "A" Bonds or as other series in accordance with the provisions of the Indenture. other series in accordance with the provisions of the Indenture.

Purpose of Issue: The proceeds from the sale of the Bonds now offered will be used for refunding

and expansion and for other purposes. Earnings: The consolidated net earnings of the properties and assets to be acquired by the Corporation available for interest after depreciation based on original costs without giving effect to the appraisal above mentioned but before Federal Taxes, as certified to by Messrs. Ernst & Ernst, have averpraisal above mentioned but before Federal Taxes, as certified to by Messrs. Ernst & Ernst, have averaged \$1,951,139 annually for the six years ended December 31, 1925, equivalent to 3.21 times the interest charges of \$607,500 on the funded debt of \$10,845,000 to be presently outstanding. For the year ended December 31, 1925, such earnings were equivalent to 3.17 times these interest charges.

MISSIN HER! HE

The Adopted Wife

By Amelie Rives
[Princess Troubetzkoy.]

Cells Gibbs is left an orphan by the death of her father, who bequeaths her to the care charity of Rilary Fraser, one of his few friends. Hilary's sister, Laura Eversham, re him of his charge by placing Celia in a French convent and, when she is eighteen her into her home to live. Two years later Laura dies and Hilary is greatly dis to what to do about Celia. A young Russian sculptor proposes to her but she refuses after and Hilary, in desperation, proposes to her himself, in order that she may live in bouse with propriety. Celia is happy in the arrangement until she overhears some rooms about herself and her "white marriage." She learns for the first time that her libr had left her penniless. Hilary goes to Europe and Celia decides to get herself a job. She applies to Abe Sieburg of the Sieburg theater, who agrees to take her on in a fancy origing stant. She gives up her job the day before Hilary is due back in the country. She with him of her adventure, and greatly to her surprise he is amused by it. Cella becomes redies at the inactivity of the life she leads in Hilary's house. She meets a young must Padraic O'Shea, who is greatly attracted to her.

INSTALLMENT XXVII.

A DELIGHTFUL MORNING. Celia's lips parted and she looked at Hilary incredulously.

"Yes, I do," replied Hilary, still in a tone of gloom Then he gave himself a sort of shake. His flat, nervous shoulders looked

very broad in the white canvas jerkin. "Look here, Celia," he said in another voice, "the fact is, I'm rather sick

of writing-I suppose it's natural-I've been at the thing so long-but I'll soon have done with it—as I told you. When it's finished, I've lots of things I want to talk over with you-things that will interest you, I think." He smiled at her, and somehow his smile also seemed new. Perhaps i

FACES BRIBERY **CHARGE TODAY**

eka, Kas., March 23.—(P)-Jona M. Davis, former governor of

Kansas, and his son, Russell Davis, will appear in district court here tomorrow morning to face charges of selling a pardon to Fred W. Pollman, convicted bank embezzler. Young Davis is charged with having accepted \$1,-250 when he de-

livered the pardon to Pollman in a Tokepa hotel JONATHAN M. DAVIS. room more than a year ago. The

elder Davis, who issued the pardon a few weeks before his term as governor expired, is alleged to have used his son as an agent in the transaction. Davis has declared that his political enemies "framed" Russell. The former governor and Carl J. Peter-con, former state bank commissioner recently were acquitted on charges of seeking a \$2,500 bribe.

Above all, we find blues ranging over a wide field of experiment. Among the fashionable blues of today are the flag color indorsed by Chanel, the Lanvin blue—this a light tone—beloved of the couturier for whom it is named; azure, horizon, and Capri. Even these that I have named are a suggestion

Often, too, the navy costume is combined with a light blue chosen from these more frivolous tones of the same color. Thus, today's model of navy twill is finished with a military vestee and lining of its equally military cape
—both in Lanvin blue. As for the
braid, this is impartial and mingles
both the navy and the lighter blue. DEFICIAL WEATHER FORECAST.

The official forecast for today and tomorrow and varies in its scope from the belt is usually narrow and varies in its scope from the one which functions only in the back to the more generous type which entirely removed furties by Thursday probably followed by rain at night changing to snow flurries by Thursday role of the novelties of the season is Jenny's little top coat, of which I shall speak in detail later on.

In a lighter blue.

Speaking of spring coats, in general, one may conclude safely that the belted model is the dominant note in this province. The belt is usually narrow and varies in its scope from the one which functions only in the back to the more generous type which encircles the figure. The general line is straight, with only plaits or panels to suggest M. Lelong's theory of motion. One of the novelties of the season is Jenny's little top coat, of which I shall speak in detail later on.

Bring Out the Hidden Beauty

Do you know that just beneath that soiled, discolored, faded or aged complexion is one fair to look upon? Mercolized Wax will gradually, gently peel off the devitalized surface skin, revealing the young, fresh, white, beautiful skin underneath. The new complexion is a perfectly natural one, not to be compared with a make-up. The Wax leaves no trace but that of increased loveliness.

is painless, for the thin veil of outer skin has no nerves. Nature renews complexions the same way, constantly shedding tiny particles of the surface covering or scarf skin. But in time this process slows up. Then Mercolized Wax, the rejuvenator, Comes to the Rescue and hastens the skin shedding. This is the secret of its marvelous success. So if your skin is old-looking, sanow, over-red, blotchy, parched rough, oily — the stubborn scarf skin—take it off! Have you pimples, freckles, moth patches, liver spots? Peel them off! Get rid of them!

It Really Assists Nature
Isn't it better to remove a bad complexion than to try to hide or cover up the defects? This peeling method is painless, for the thin veil of outer skin has no nerves. Nature renews complexions the 'same way, constantly shedding tiny particles of the surface covering or scarf skin. But in time this process slows up. Then Mercolized Wax, the rejuvenator, Comes to the Rescue Women Envy and Men Admire

—and you easily look from 10 to 20 years younger! Obtain an ounce of Mercolized Wax from your druggist or de-partment store, use as directed— and join the vast multitude who are praising the virtues of this wonder-working product.

WANTED-MALE HELP. recutives and Managers

THAT IS YOUR OWN?

Most any business man would invest \$30,000 cash in a high grade standard legitimate business that would earn for him \$15,000 or more per annum. So would you, if you had the shoney, provided you knew it was perfectly safe, with no chance to lose, and as absolute certainty that you would receive \$15,000 or more cash returns each year. In fact, you would also be willing to put in your entire \$350 days a year to make that \$50,000 earn \$15,000 each year.

WELL, I CAN GO YOU ONE BETTER THAN

THAT! I can put you in business for yourself, make you your own boss, and show you how you can earn \$15,000 or more every year, and you don't have to put \$50,000 or any part of it into the business. All you need as ambition, and a sincere desire to improve your present condition. I have made hundreds improve their saming capacity, and become successful. I can do the same for you. LINDSAY T. EALES,

SALES MANAGER. mply Room 408, London Guarantee Bldg.

And here's why.

At this office you work directly for the owner, which means that you get all of the commissions due on every sale you make. Another difference is this: my properties are hand picked, not merely vast acreages boursh and picked, not though nerve and pressure. I can also use a few inexperienced salesmen and executives who have handled men in other lines of business, and could adapt that ability to groups of my selling force. Foreign language salesmen and a number of part time people can also find openings here where they make under pleasant dignified conditions twice what they could elsewhere under less desirable conditions.
